14 April, 2005

Prof. F.F. Mende,

47 Lenin Ave., Kharkov 61103 , UKRAINE Tel: +(380)-57-340-
22-23 Fax: +(380)-57-340-33-70 E-mail: ilt@ilt.kharkov.ua

Dear Prof. Mende,

From behalf of organizing committee I would like to invite you to participate in the workshop “Nonlocal, Collisionless Electron Transport in Plasmas”, August, 2-4, 2005, which will take place in the Princeton University. Princeton Plasma Physics Laboratory in the Princeton University is the leading center in plasma physics. This guarantees high scientific level of the workshop and the list of participants includes the best experts in plasma physics.

Your achievements in the theory of nonlocal electron transport are recognized and we invite you to participate in the workshop and submit papers into conference proceeding in special issue of IEEE Transaction on Plasma Science on your recent results with title “Transverse plasma resonance” and “Pinch effect and magnetic field for particle beams”.

Sincerely yours,

Dr. Igor Kaganovich,

Chairman of Workshop Organizing Committee
